### Florida Chapter

Issue 20

Mar-Apr 2015

#### Message from your President

March brings some exciting things to our club due to the efforts of new member Dave Leash. We now have a website

[www.pocitampa.org](http://www.pocitampa.org) and a Facebook page **Pontiac Oakland Gmc-Poci club Florida- Tampa Chapter**. Check them both out and let us know what you think. I'm still learning how to use social media.

Our March meeting is moving to Rivard Buick GMC at 9740 Adamo Dr. (SR60) Tampa, Fl 7PM

This month we will finalize the club shirt and jacket logo. Dave will bring examples. We also have to discuss what we want to put on our POCI National web site.

We want to welcome new members **Bill & Mary White, Larry & Cindy Folino, John & Frances Wiles, Dave Leash** and our 1<sup>st</sup> new member from our website, **Michael Bartholomew**.

Send us pictures of your Pontiacs, Oaklands and GMCs to our facebook. We want G8s, Solstices, Last Generation GTOs and Firebirds

**Rich**

#### Meeting & Location

Our next meeting will be on **Tuesday Mar. 24, 2015** at 7:00pm

**Rivard Buick GMC  
9740 Adamo Dr. (SR60)  
Tampa, Fl.**

## Bill & Mary White's 1999 TA Convertible

- *In Bill's Own Words*

In 2013 Mary and I attended the POCI-GTOAA Convention in Dayton, Ohio and for the first time saw a 1999 30<sup>th</sup> Anniversary Trans Am Convertible. At that point we decided to look for one to add to our small Pontiac collection. Later that summer we found car #1094 in Illinois with 4030 miles on it. Although 1600 Anniversary Trans Ams were produced, only 535 of them were convertibles, making it even rarer.

As the pictures indicate, it is Arctic White with a navy blue top and dual two-tone blue stripes. It also has special blue tinted 17" aluminum wheels. The interior features white leather seats with blue stitching 30<sup>th</sup> anniversary emblems and 30<sup>th</sup> anniversary floor mats.

Mechanically it has a 320hp LS1 engine with the WS6 Ram Air Performance and Handling Package, performance axle, and 4 speed automatic transmission.
